

EFFORTS TO RAISE THE PROTECTION OF INTELLIGENCE

SOURCES AND METHODS TO EXECUTIVE ORDER LEVEL

Section 5. Marking of Classified Material.

(j) Warning Notices: In addition to the classification markings prescribed herein, one or more of the following warning notices shall, at the time of preparation, be prominently shown on classified documents or other material or, if not feasible, in the written notification of its assigned classification:

~~Sources and Methods~~ ^{involving} (4) For classified material ~~containing~~ sensitive intelligence information, the following warning notice shall be used, in addition to and in conjunction with those prescribed in (1), (2), or (3), above, as appropriate.

^{Intelligence}
"WARNING NOTICE-SENSITIVE SOURCES
AND METHODS INVOLVED"

Section 7. Access, Dissemination and Accountability

(d) Information or material bearing the notation "WARNING NOTICE - SENSITIVE SOURCES AND METHODS INVOLVED", shall not be disseminated outside authorized channels or released publicly in any manner without the permission of the originating agency and an assessment by the appropriate intelligence chief as to the risk to the national security and to the intelligence sources and methods involved.

Section 12. "Restricted Data," Material Formerly Designated as "Restricted Data," Communications Intelligence, and Cryptography

<sup>Intell Sources
and methods</sup>

(b) Nothing in this Order shall prohibit any special requirements that the originating agency or other appropriate authority may impose with respect to the protection of communications intelligence, cryptography, intelligence sources and methods, and matters related thereto.

Appendix to Executive Order 10501
Definition of Terms

Sensitive Intelligence ^{~~Sources and methods~~} Sensitive intelligence ^{Sources and methods} information is that ~~classified intelligence~~, the unauthorized disclosure of which could lead to counteraction (a) jeopardizing the continued productivity of intelligence sources and methods which provide information vital to the national security or (b) offsetting the value of intelligence vital to the national security.

are those which produce
classified intelligence the....
